Classification is source-specific: covers, print spreads, online-only features, styled shoots, real weddings, and the partner event are kept distinct.

## THE PARTNERSHIP RECORD

# Creative participation, client collaboration, measured delivery.

Shotlife Studio's work with WedLuxe shows how an active member relationship can develop across distinct editorial formats. The studio contributed photography, cinematography, creative direction, and co-production where the source credits support those roles; documented clients whose weddings appeared in print and online; and joined a partner event where WedLuxe involved member talent to capture the experience.
